Józef Joachim TELEGA

## List of publications

1. Application of linear programming to the determination of limit analysis of rod and plate structures, in: Materiały IV Konf. Naukowo-Techn. "Konstrukcje Metalowe", Warszawa, 1970, pp. 610 - 615, in Polish.

2. Application of linear programming to the determination of limit load of structures, Mech. Teor. Stos., 1, **9**, 1971, 7 - 52, in Polish.

3. Determination of limit load of circular arch by using linear programming, Zeszyty Naukowe Politechniki Śląskiej, Mechanika, 44/1971, 19 - 25, in Polish.

4. Some types of linear, homogeneous product objects (double, connecting) of the first class, Zeszyty Naukowe Politechniki Śląskiej, Matematyka - Fizyka, 16//1971, 15 - 30, in Polish.

5. Translator spaces, Zeszyty Naukowe Politechniki Śląskiej, Matematyka - Fizyka, 16/1971, 3 - 13, in Polish.

6. Perfectly - plastic media subject to multi - parameter loadings, Eng. Trans., **20**, 1972, 241 - 251, in Polish.

7. On some generalizations of limit analysis theorems for Cosserat media, Mech. Teor. Stos., **10**, 1972, 411 - 427, in Polish.

8. On covariant derivative of product scalars and $(H, \bar{H})$ - product tensors, Prace Mat. Uniwersytetu Śląskiego, 3//1973, 87 - 96.

9. On some generalizations of shifter spaces, Demonstratio Math., **6**, 1973, 373 - 385.

10. Covariant derivative of product tensors, Ann. Pol. Math., **27**, 1972, 69 - 74.

11. Finite element method in soil and rock mechanics, Mech. Teor. Stos., **11**, 1973, 195 - 210, in Polish.

12. Finite element method in mechanics of deformable bodies, IFTR Reports, 46//1973 (second enlarged edition: 55//1975), in Polish.

13. On yield conditions and constitutive equations for rigid - plastic solids, IFTR Reports, 22/1974, in Polish.

14. Divergence of product tensor density, Zeszyty Naukowe Politechniki Śląskiej, Matematyka - Fizyka, 25/1974, 159 - 168, in Polish.

15. On the limit analysis and certain variational principle for rigid - plastic media, Bull. Acad. Pol. Sci., Série sci. tech., **22**, 1974, 421 - 426.

16. Application of Pontriagin's maximum principle to problems of structural optimisation, Materiały XIII Sympozjonu "Optymalizacja w Mechanice", PTMTS Gliwice, 1974, pp. 259 - 271, in Polish.

17. A. Sawczuk, J.J. Telega, A remark on plane plastic motion, Mech. Res. Commun. **2**, 1975, 209 - 214.

18. Shifter spaces and spaces with teleparallelism. Shifter in Riemannian spaces, Prace Un. Śląskiego, 6/1975, 7 - 15.

19. An operator approach to the formulation of variational principles for plastic solids, Mech. Teor. Stos., **14**, 1976, 557 - 570, in Polish.

20. On affine geometric product objects, Ann. Pol. Math., **34**, 1977, 197-200.

21. Variational principles for an incompressible, perfectly plastic material with non - associated flow law, Bull. Acad. Pol. Sci., Série sci. tech., **25**, 1977, 357 - 363.

22. On plane plastic flow of compressible solids, Zeitschr. Ang. Math. Mech., **58**, 1978, 133 - 142.

23. Dual extremum principles in rate boundary value problems of non - associated plasticity, Int. J. Eng. Sci., **17**, 1979, 215 - 226.

24. On variational formulations for non - linear, non - potential operators, J. Inst. Maths Applics, **24**, 1979, 175 - 195.

25. Variational principles for rate boundary - value problems in non - associated plasticity, Zeitschr. Ang. Math. Mech., **60**, 1980, 71 - 82.

26. Theory of invariants: from Boole to the present. Tensor functions and concomitants, in: Metody Analizy Funkconalnej w PlastycznoŚci, ed. by J.J. Telega, Ossolineum, Wrocław 1981, pp. 331 - 361, in Polish.

27. A. Lutoborski, J.J. Telega, Effective moduli for an elastic arch, Bull. Acad. Pol. Sci., Série sci. tech., **30**, 1982,165 - 170.

28. Derivation of variational principles for rigid - plastic solids obeying non - associated flow laws I. Further development of the nonlinear method of adding the adjoint operator. Prescribed jumps, Int. J. Eng. Sci., **20**, 1982, 913 - 933.

29. Derivation of variational principles for rigid - plastic solids obeying non - associated flow laws - II. Unprescribed jumps, Int. J. Eng. Sci., **20**, 1982, 935 - 945.

30. Determination of potential form of operators, Matematyka Stos., **18**, 1982, 107 - 122, in Polish.

31. A. Lutoborski, J.J. Telega, Homogenization of a plane elastic arch, J. Elasticity, **14**, 1984, 65 - 77.

32. A. Gałka, J.J. Telega, A variational method for finite elasticity in the case of non - potential loadings I. First Piola - Kirchhoff stress tensor, Bull. Acad. Pol. Sci., Série sci. tech., **30**, 1982, 121 - 128.

33. A. Gałka, J.J. Telega, A variational method for finite elasticity in the case of non - potential loading - II. Symmetric stress tensor and some comments, Bull. Acad. Pol. Sci., Série sci. tech., **30**, 1982, 129 - 135.

34. Some aspects of invariant theory in plasticity - Part I. New results relative to representation of isotropic and anisotropic tensor functions, Arch. Mech., **36**, 1984, 147 -162.

35. W.R. Bielski, J.J. Telega, A note on duality for von Kármán plates in the case of the obstacle problem, Arch. Mech., **37**, 1985, 135 - 141.

36. W.R. Bielski, J.J. Telega, A contribution to contact problems for a class of solids and structures, Arch. Mech., **37**, 1985, 303 - 320.

37. Limit analysis theorems in the case of Signorini's conditions and friction, Arch. Mech., **37**, 1985, 549 - 562.

38. T. Lewiński, J.J. Telega, On homogenization of fissured elastic plates, Mech. Res. Comm., **12**, 1985, 271 - 281.

39. Variational methods and extremum principles for some non - classical problems of plasticity: unilateral boundary conditions, friction, discontinuities, in: Variational Methods in Engineering, ed. By C.A. Brebbia, Springer - Verlag, Berlin 1985, pp.(8 - 27) - (8 - 36).

40. W.R. Bielski, J.J. Telega, On the obstacle problem for linear and nononlinear elastic plates in: Variational Methods in Engineering, ed. by C.A. Brebbia, Springer - Verlag, Berlin 1985, pp. (3 - 55) - (3 - 64).

41. A. Gałka, J.J. Telega, On variational principles and conservation laws in finite non - potential elasticity, in: Variational Methods in Engineering, ed. by C.A. Brebbia, Springer - Verlag, Berlin 1985, pp. (3 -13) - (3 - 22).

42. W.R. Bielski, J.J. Telega, On the complementary energy principle in finite elasticity, in: Proc. of the Int. Conf. on Nonlinear Mechanics, Shanghai, China Science Press, Beijing, 1985, pp. 211 - 218.

43. W.R. Bielski, J.J. Telega, The complementary energy principle in finite elastostatics as a dual problem, in : Finite Rotations in Structural Mechanics, Lecture Notes in Engineering, **19**, Springer - Verlag, Berlin 1986, pp. 62 - 81.

44. T. Lewiński, J.J. Telega, Effective stiffness of nonhomogeneous shallow shells with a periodic structure, Prace Naukowe Instytutu In/zynierii Lądowej Politechniki Wrocławskiej, Z. 12, 1986, Konferencje 134, pp. 93 - 99, in Polish.

45. Variational methods in contact problems of the mechanics, Uspekhi Mekhaniki (Adv. Mech.), **10**, 1987, 3 - 95, in Russian.

46. J.J. Telega, W.R. Bielski, A contribution to existence problems for a geometrically nonlinear shell model, in: Selected Problems of Modern Continuum Theory, ed. by W. Kosinsky, T. Manacorda, A Morro, T. Ruggero, Pitagora Editrice Bologna 1987, pp. 177 - 193.

47. Variational inequalities in contact problems of the mechanics, in: Mechanika Kontaktu Powierzchni, ed. by Z. Mróz, Ossolineum, Wrocław 1988, pp. 51 - 165.

48. T. Lewiński, J.J. Telega, Asymptotic method of homogenization of fissured elastic plates, J. Elasticity, **19**, 1988, 37 -62.

49. W.R. Bielski, J.J. Telega, On existence of solutions for geometrically nonlinear shells and plates, ZAMM, 1988, T155 - T157.

50. Topics on unilateral contact problems of elasticity and inelasticity, in: Nonsmooth Mechanics and Applications, ed. by J.J. Moreau and P.D. Panagiotopoulos, Springer - Verlag, Wien - New York, 1988, pp. 341 - 462.

51. T. Lewiński, J.J. Telega, Homogenization of fissured Reissner - like plates. Part I, Method of two - scale asymptotic expansions, Arch. Mech., **40**, 1988, 97 - 117.

52. J.J. Telega, T. Lewiński, Homogenization of fissured Reissner - like plates. Part II. Convergence, Arch. Mech., **40**, 1988, 119 - 134.

53. T. Lewiński, J.J. Telega, Homogenization of fissured Reissner - like plates. III. Some particular cases and illustrative example, Arch. Mech., **40**, 1988, 399 - 307.

54. T. Lewiński, J.J. Telega, Asymptotic method of homogenization of two models of elastic shells, Arch. Mech., **40**, 1988, 705 -723.

55. W.R. Bielski, A. Gałka, J.J. Telega, The complementary energy principle and duality for geometrically nonlinear elastic shells - Part I. A simple model of moderate rotations around tangent to the middle surface, Bull. Polish Acad. Sci., Tech. Sci., **36**, 1988, 415 - 426.

56. J.J. Telega, W.R. Bielski, A. Gałka, The complementary energy principle and duality for geometrically nonlinear elastic shells - Part II. Moderate rotation theory, Bull. Pol. Acad. Sci., Tech. Sci., **36**, 1988, 427 - 439.

57. A. Gałka, J.J. Telega, W.R. Bielski, The complementary energy principle and duality for geometrically nonlinear elastic shells - Part III. Nonlinear tensor of changes of curvature, Bull. Pol. Acad. Sci., Tech. Sci., **37**, 1989, 375 - 389.

58. W.R. Bielski, A. Gałka, J.J. Telega, The complementary energy principle and duality for geometrically nonlinear elastic shells - Part IV. Simplified form of nonlinear tensor of changes of curvature. The complementary energy principle expressed in terms of internal forces and displacements, Bull. Pol. Acad. Sci., Tech. Sci., Tech. Sci., **37**, 1989, 391 - 400.

59. On the complementary energy principle in non - linear elasticity, Part I: Von Kármán plates and three - dimensional solids, C.R. Acad. Sci. Paris, Serie II, **308**, 1989, 1193 - 1198.

60. On the complementary energy principle in non - linear elasticity. Part II: Linear elastic solid and non - convex boundary condition. Minimax approach, C.R. Acad. Sci. Paris, Série II, **308**, 1989, 1313 - 1317.

61. T. Lewiński, J.J. Telega, Overall properties of plates with partially penetrating fissures, C.R. Acad. Sci. Paris, Série II, **309**, 1989, 951 - 956.

62. Homogenization of fissured elastic solids in the presence of unilateral conditions and friction, Computational Mech., 1990, 109 - 127.

63. Some results of homogenization in plasticity: plates and fissured solids, in: Inelastic Solids and Structures, ed. by M. Kleiber and J.A. König, pp. 343 - 360.

64. A. Gałka, J.J. Telega, The complementary energy principle for a model of shells with an independent rotation vector, ZAMM, **70**, 1990, T253 - T256.

65. J.J. Telega, W.R. Bielski, Variational formulation of the transient motion of a rolling cylinder undergoing plane finite deformations, Mech. Res. Comm., **17**, 1990, 117 - 127.

66. Piezoelectricity and homogenization. Application to biomechanics, in: Continuum models of Discrete Systems, vol.2, ed. by G.A. Maugin, Longman Scientific and Technical, Harlow, Essex 1991, pp. 220 -229.

67. Quasi - static contact problems with friction and duality, in: Unilateral Problems in Structural Analysis - 4, ed. by G. Del Piero and F. Maceri, Birkhäuser Verlag, Basel 1991, pp. 199 - 214.

68. T. Lewiński, J.J. Telega, Non - uniform homogenization and effective properties of class of nonlinear elastic shells, in: Trends and Applications of Mathematics to Mechanics, ed. by W. Schneider, H. Troger and F. Ziegler, Longman, London 1991, pp. 248 - 253.

69. T. Lewiński, J.J. Telega, Homogenization and effective properties of plates weakened by partially penetrating fissures: asymptotic analysis, Int. J. Eng. Sci., **29**, 1991, 1129 - 1155.
